

GenomeAtlantic

Celebrating 10 years of discovery

PHASE I OF NEW PROPOSAL DEVELOPMENT

2010 GENOME CANADA COMPETITION

In a maximum of two pages (total), please cover the following topics:

1. Project title
2. The high-level vision for the project, its science foundation and main scientific components (at the macro level) – why is the proposed project important and why would it be considered internationally competitive?
3. The proposed Project Lead(s) and the key project partners
4. A ball-park approximation of the total budget and the kinds of organizations that (in theory) might provide co-funding
5. The potential impacts of the project (economic, social or both) and an estimate of the time to impact

Please submit to:

Shelley King, Director, Project Management
